*Jeff's clients appreciate his knowledge and commitment to their industry and their needs. His expertise and resources is what makes Jeff unique to this industry.*

*Unique Risks and Exposure are the backbone of Jeff's insurance knowledge. Understanding where to find the coverage is just as important as what coverage to obtain. Jeff has maximized his resources and has aligned with over 1000 professionals to assist in all the needs of his clients and is considered a respected advisor to many.*

*"Educating clients on their insurance needs, is equally as important as finding the right insurer to place those needs with." - Jeff Kleid*

*You may already know that going green can reduce operating costs, boost productivity and improve profitability.*

***BUT DID YOU KNOW:***

*Some green initiatives can INCREASE your risks?*

*Your current insurance may not fully replace your green building or adequately cover your extra expenses in the event of a loss?*

*Special insurance programs are available to reduce your premiums and enhance your coverage?*

### ***CMMGREEN***

*Whether you are just starting to consider what it means to 'go green' or you are well established as a green company, **CMMGREEN** can help. As the leader in Green risk management, we can:*

- Help you understand, identify and manage your risk*
- Reduce your risk while enhancing profitability*
- Boost productivity with a safer, healthier work environment*
- Improve your insurance with special credits and coverage enhancements for green companies*

*Since 1934, CMM has helped our clients secure the best, most cost effective insurance coverage while providing exceptional personal service. To learn more, visit [www.cmmgreen.com](http://www.cmmgreen.com) or call me today.*
